ALTERED/MOVED NOTES: Moved from another farm in the 1940's. Roof and walls have been covered with galvanized steel roofing. Horse stalls have been removed. 16'x32 Lean-to added to the East side. 12'x16' lean-to added to the West side with a concrete floor and two concrete gutters. It appears to have been used for farrowing swine. Several pens appear to have been built in the original barn for swine.

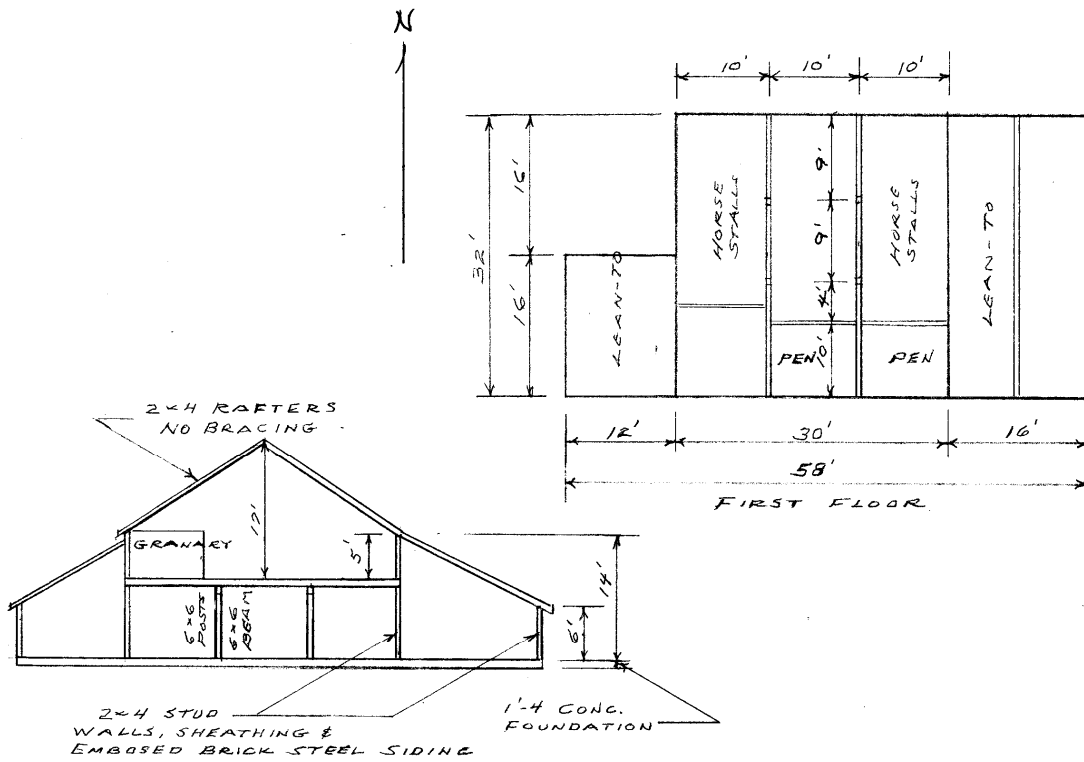

INTERIOR NOTES: 6x6 posts, with 6x6 for a beam. Beams run North to South. 8' from the West wall and 8' from the East wall leaving an 8' center alley. 2x8 floor joists for the hayloft floor. The center 30'x32' has 2x12 plank floor. I don't know what is under the plank flooring for floor joists. Wooden cupola.

OTHER NOTES: 2x4 walls 14' high with sheathing on the center 24'x32' (original barn). 2x4 rafters with no bracing. 10'x8' granary in the NW corner of hayloft. 2x4 stud walls with sheathing on both additions. 2x4 rafters on both additions. East addition has a center support for the rafters. Steel brick embossed siding on the exterior walls. Most of the windows are gone, but appear to have been 9"x12" four light.

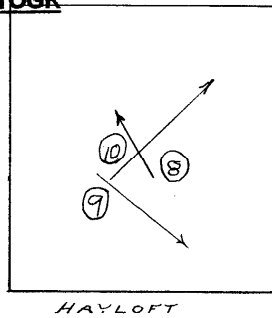

***PHYSICAL NOTES:** Barn is in fair condition. Needs some exterior maintenance. I suspect two lowered concrete foundations under the posts and beams. These would support the floor joists under the 2x12 plank floor. The floor is level with the top of the exterior foundation.

William (Billy) Carr immigrated from Ireland. Date unknown. Married a local lady. They had no children. He had a brother who immigrated also.

They lived on a farm by Highway 46 earlier. They also lived on a farm South of Wakonda. They bought the farm ¾ mile East of this barn and lived there in about the 1920's. He bought the farm where this barn is located later and moved this barn in from another farm in the 1940's. He lost the place east of this barn in the 1930's, but held onto this farm. They moved to this farm then.
