ALTERED/MOVED NOTES: Original site. Milk cow stanchions and horse stalls have been removed.

Roof has been covered with steel roofing. 14'x36' lean-to added on the South side at a later date.

Posts have been removed and replaced with 4" round steel pipe posts. Interior has been remodeled for a dairy barn a long time ago. Concrete floor poured with gutters and milk room built in the NW corner, which could have been a granary before the remodel.

INTERIOR NOTES: Has three rows of 4" round steel posts, with (3) 2x8's for a beam, which run North to South (the short way). 2x6 rough sawn cottonwood floor joists run the long way East to West.

OTHER NOTES: 2x6 rough sawn cottonwood stud walls with 1x6 #106 drop siding and 1/2"x6" cedar lap siding. Windows are 9"x12" four light on the East and South walls and 4"x24" four light on the West and North walls. Metal cupola still in place, but it is a design that I have not seen before. Two rough sawn cottonwood 2x8 posts with a 2x6 beam support the center of the rafters on each side in the hayloft.

\*PHYSICAL NOTES: Barn is in very good condition.
